SUMMARY

Dedicated MERN Stack Developer with a strong focus on building scalable, high-performance web applications. Skilled in crafting seamless, intuitive, and engaging web experiences using MERN and Tailwind CSS.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

Chitkara University, Rajpura, Punjab

Sept 2021 - Sept 2025

CGPA : 9.33

Class XII CBSE

Golden Public School, Uklana Mandi, Haryana

Apr 2019 - Mar 2020

75.8%

Class X CBSE

S.M.L.A Middle School, Tohana, Haryana

Apr 2017 - Mar 2018

76%

PROJECTS

E-Social

Oct 2024

e-social.vercel.app

- Developed a social media application using MERN stack with Tailwind CSS for a responsive UI.
- Implemented user authentication enabling secure JWT-based login and profile management.
- Designed interactive features, including post creation, commenting, likes, and a friend request system for seamless social connections.
- Built scalable RESTful APIs with Express.js & MongoDB, designing efficient endpoints to handle user interactions and ensure smooth app performance.

Tic-tac-toe

July 2024

tictactoenaveen.onrender.com

- Developed a real-time two-player game using WebSockets, enabling smooth interactive gameplay with a fully responsive design for optimal experience across devices.
- Designed and implemented a room-based matchmaking system, allowing players to effortlessly create and join game sessions, enhancing user engagement and accessibility.

Ecoride Carpooling

Feb 2024 – June 2024

theecoride.in

- Developed a responsive web application using React.js and Tailwind CSS with secure authentication, authorization, and error handling. Ensured smooth performance and a user-friendly interface across all devices.
- Implemented version control with Git, facilitating efficient code collaboration and version management.
- Designed and managed MongoDB databases for user data, including deployment and maintenance.
- Developed secure and scalable RESTful API's using Express.js, implementing user authentication, ride management, profile management, real-time chat, and notifications. Integrated JWT, WebSockets, Nodemailer and Google reCAPTCHA to enhance security, communication, and user experience.
- Integrated third-party APIs such as Leaflet and open street map for route planning and geolocation services.

SKILLS

Programming Languages: HTML, CSS, JavaScript, Java

Frameworks / Libraries: React.js, Redux.js, Node.js, Express.js, EJS, Tailwind CSS

Tools / Technologies: VS Code, Git, GitHub, Figma

Fundamentals: DBMS, Linux Administration, Python

Databases: MongoDB, PostgreSQL

Soft Skills: Creativity, Innovation, Adaptability, Agility

CERTIFICATES

- Developing Frontend Apps with React : coursera.org/verify/PBKGTBNNYEEK
- Advance Web Development : certificate.codingninjas.com/verify/246457d1cdcdade7
